SUMMARY

Skilled in building applications with MongoDB, Express, Node.js, and React (MERN) stack and other technologies, with a background in hospitality.

TECHNICAL SKILLS

HTML | CSS | Sass | NPM | JavaScript(ES6) | React | React Native | Node.js |

MongoDB | PostgreSQL | NoSQL

Express | REST API Architecture | MVC Architecture | Git | Heroku | Passport | Integration and Unit Testing

PROJECTS

- **Pokemon App** - The objective of this is to build a small web application with HTML, CSS, and JavaScript that loads data from an external API and enables the viewing of data points in detail.
- **MyFlix App** - This application utilizes MongoDB, Express, React and Node.js the objective of this is to build the server-side component of a “movies” web application. The web application will provide users with access to information about different movies, directors, and genres. Users will be able to sign up, update their personal information, and create a list of their favorite movies.
- **Meet App** - To build a server less, progressive web application (PWA) with React using a test-driven development (TDD) technique. The application uses the Google Calendar API to fetch upcoming events.
- **Hockey-API (In Progress)** - This app utilizes MongoDB, Express, Node.js, and React. The objective of this is to build the server-side component of a “hockey” web application. The back-end of this application is geared more towards growth and uses references instead of embedded documents. The web application will provide users to access information about the 2019 USA Men’s Hockey team, the players and coaches. Users will be able to sign up, update their personal information, and create a list of their favorite players.

WORK EXPERIENCE

W Boston, Boston, MA

2019 - 2020

Assistant Restaurant Manager, The Gallery: 13 unionized associates, F&B revenue of \$2M+, ranked in W’s top 5 nationally.

- Implemented a beverage control system that reduced cost of service from 30% to 20% by making PAR sheets for each bar to and to keep sufficient stock on hand.
- Reduced expenses to front desk’s Comp Gifts and Services budget line by \$500 a week by implementing a process and procedure for “breakfast-included guest(s),” limited the dollar-per-customer amount a guest could use.
- Oversaw intimate banquet functions of 10-20 people.
